\*Conference Proceedings will be made available in CD. Additional copies can be purchased at a cost of RM 50 per copy.

# MALAYSIA INPUT-OUTPUT RESEARCH ASSOCIATION

## Development Challenges in a Climate of Change

# ANNUAL MIORA CONFERENCE, 2011

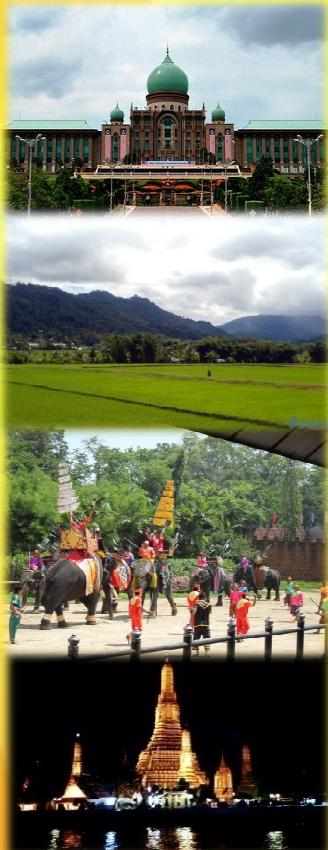

**DATE : 2 – 3 APRIL 2011**

**VENUE : HOTEL UNIVERSITI TENAGA NASIONAL,  
BANGI**

## BACKGROUND AND OBJECTIVES

We are pleased to announce that the Malaysian Input-Output Research Association will host its First Annual Input-Output Conference on the 2<sup>nd</sup> and 3<sup>rd</sup> April 2011 in Bangi, Selangor. The goal of the conference is to provide a platform for researchers, academics, policy planners and advisors to exchange their research findings. In addition, the conference is also intended as a venue to promote interest in input-output analysis.

In line with current developments in Malaysia, the conference main theme is *Development Challenges in a Climate of Change*. Recent global financial crises has led developing countries to re-orientate their development policies towards private consumption while at the same time shift towards more diversified and more knowledge-intensive goods for exports in more diversified markets. Meantime, the need to continue with sustainable development agendas suggests that development strategies cannot disregard environmental concerns, including climate change mitigation and adaptation measures. These concerns must be incorporated into developments and growth policies for the future.

## CONFERENCE THEME

We welcome all papers related to issues on

- ▣ development economics,
- ▣ tourism, natural resource and environment,
- ▣ labor and demographic economics,
- ▣ finance and banking,
- ▣ human resource management and development,
- ▣ trade and marketing,

In particular, we especially welcome papers related to the main theme on topics such as (a) Input-output analysis for policy making; (b) Emerging issues in developing countries; (c) Impact analysis: GST, NKEA, value added and employment; (d) Productivity and efficiency analysis; (e) Structural change and dynamics; (f) Social accounting matrix and CGE; (g) International trade and investment (h) Regional input-output modeling; (i) Input-output analysis for climate change assessment; (j) Environmental input-output modeling; (k) Input-output analysis of disasters; (l) Input-output and LCA analysis; and (n) Methodological aspects of input-output analysis. Special sessions will be allotted to papers using input-output based modeling or any aspect of tourism research.

## FORMAT AND DEADLINES

1. Paper should not be more than 15 pages with an abstract of no more than 200 words.
2. Notification of acceptance will be sent by 1<sup>st</sup> March 2011. The Conference Secretariat must receive final revised manuscripts by 07<sup>th</sup> March 2011.
3. The author(s) must certify that the accepted paper is not copyrighted and has not been published elsewhere.
